TWIN CITY ANCIENT COIN CLUB

699
3560

The Twin City Ancient Coin Club will meet Thursday, 10/25/84 in the Immanuel Luth. Church Lounge on Goodrich & Snelling, St. Paul, at 7:30 PM.

The program focus will be on the time frame 3 AD - 70 AD. According to the New York Times: "A highly important advance toward a viable modern historical picture of Jesus and the earliest Christians" is a commentary of a book called "Trial of Jesus of Nazareth" which is authored by S.G.F. Brandon, Professor of Comparative Religion. Bob Stumm will lead the discussion as he relates the author's analysis of that Chritian era. He will tell of some of the conclusions drawn regarding how the gospels were written which we find in our bibles. There is plenty of controversy about the Jews vs the Romans. You may want to bring some documentation you know about that agrees or refutes some of these analyses.

The November meeting will be held Nove. 15, Thurs. because of Thanksgiving. Please READ your November newsletter carefully as I still have to clear the 15th with the church because of the change of date. This will be a big meeting as Jerry Kolton finalizes having a coin dealer from Chicago come. He will also give the program (educational) and, of course, bring coins.

Tentatively the second Saturday evening in Dec. will be our social outing. Moline Broburg and Myrtle Coe are in charge so we will get an update on our party plans during the Christmas season.

Barely, is this wee letter getting to you. Last week Whitney had surgery on his left eye for a detached retina. Four hours later he was on his way to recovery at Methodist Hosp. Today (Sun) he is home and doing well, but will be home this week and must not put undue strain on the eye for six months. All this trauma left me trying to be at my secretarial job and being with Whitney. He may not feel like being out for the evening on Thurs., but during the day he can amble around, watch TV and read a little with the other eye.

We are so glad to hear we have several wonderful programs planned during the year. Long range planning for our club is not an easy task, but your participation in the club and the best planning possible will keep our club healthy. Please contribute in whatever way you can.

Lindsay Whitney 645-1163

Bob 452-1569
